EXTRA VIRGIN OLIVE OIL HAND CREAM

Contents 75ml

PAO

EAN Code

Size per unit: ø70 x h.26 mm
 Weight per unit: 90 g
 Units per carton: 12
 Weight per carton: 1,2 Kg
 Carton size: (l. x l. x h.) 235x180x100 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

This protective formula, containing extra virgin Taggiasca olive oil, is enriched with allantoin and glycerine. Soft and readily absorbed, it nourishes the skin of the hands, protecting it against various harsh agents (cold, water, etc.), moisturising it and improving its appearance. Non-oily and easy to apply.

Use

Apply small amounts several times a day, when you feel the need and before the normal daily activities.

The use of this cream prepares and facilitates hand manicure, as it softens the cuticles. It also protects and improves the appearance of the hands.

Active ingredients and their effects

- Glycerine: a polyalcoholic structure that withholds superficial exchange water, used also for its moisturising characteristics.
- Extra Virgin Olive Oil (*Olea europaea*): An essential active ingredient in the cosmetics and dermatology sector on account of its highly sebum-like characteristics, Extra Virgin Olive Oil is rich in antioxidants, vitamin E and active ingredients that stimulate the formation of collagen and elastin and that protect the skin against photo-induced oxidation (phytosterols and squalene).
- Allantoin: This molecule with pharmaceutical properties is used as to aid healing in the treatment of skin ulcers. At the concentrations at which it is found for cosmetic purposes, it boasts very useful keratoplastic properties (replenishes damaged or brittle skin): in other words, it helps the skin to reform and, therefore, to become stronger.
- Dog rose (*Rosa Canina*): Dog Rose hips are well known for their richness in vitamin C that makes them a valid aid in boosting our immune defences. Its high carotenoid, flavonoid and anthocyanin content justifies its use in treatments that leave the skin soft and protected, particularly in the presence of couperose and dilated capillaries and its vasoprotective and anti-inflammatory properties make it ideal for use on delicate and sensitive skins.

Ingredients

AQUA (WATER), GLYCERIN, STEARIC ACID, OLEA EUROPAEA OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), SODIUM CETEARYL SULFATE, CETYL ALCOHOL, ETHYLHEXYL STEARATE, PROPYLENE GLYCOL, PHENOXYETHANOL, DIMETHICONE, PARFUM (FRAGRANCE), ROSA CANINA FRUIT EXTRACT, ALLANTOIN, BENZOIC ACID, SODIUM DEHYDROACETATE, DEHYDROACETIC ACID, ETHYLHEXYLGLYCERIN

EXTRA VIRGIN OLIVE OIL MOISTURIZING BODY CREAM

Contents 150ml

PAO

EAN Code

Size per unit: ø85 x h.40 mm
 Weight per unit: 165 g
 Units per carton: 12
 Weight per carton: 2,2 Kg
 Carton size: (l. x l. x h.) 275x210x100 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

A pleasant, readily absorbed emulsion that nourishes and moisturises the skin. Taggiasca Extra Virgin Olive Oil, which is extremely rich in triglycerides and natural antioxidants, and a super-moisturising active ingredient combine to reduce and delay the cellular ageing process, by moisturising and strengthening the hydrolipidic barrier. It restores tissue tone and leaves the skin soft and velvety.

Use

Apply product immediately after taking a bath or shower using circular massaging movements until it is completely absorbed.

Active ingredients and their effects

- Citric Acid: Naturally normalises the skin's pH. Its acidic pH helps keep the skin's protective film of water, acid and lipid components efficient and in optimum conditions.
- Shea Butter (Butyrospermum Parkii Butter): Shea butter is widely used in the cosmetics sector on account of its healing, emollient, elasticising, moisturising, antioxidant, soothing, film-forming and protective properties. However, it also boasts an unparalleled content of unsaponifiables (12-18%), substances that play an essential role in improving skin tone and elasticity.
- Supermoisturising Complex (Anhydroxylitol, Xylitol, Xylitylglucoside): Product based on the application of wheat and wood fermentation technologies, developed to provide a combination of immediate and long-term moisture. It optimises the skin's natural water reserves, by developing the synthesis of GAGs (glycosaminoglycans).
- Glycerine: a polyalcoholic structure which withholds superficial exchange water, used also for its humectant characteristics.
- Extra Virgin Olive Oil (Olea europaea): An essential active ingredient in the cosmetics and dermatology sector on account of its very sebum-like characteristics, Extra Virgin Olive Oil oil is rich in antioxidants, vitamin E and active ingredients that stimulate the formation of collagen and elastin and that protect the skin against photo-induced oxidation (phytosterols and squalene).

Ingredients

AQUA (WATER), BUTYROSPERMUM PARKII BUTTER (BUTYROSPERMUM PARKII (SHEA) BUTTER), COCOGLYCERIDES, CETEARYL ALCOHOL, GLYCERIN, GLYCERYL STEARATE, OLUS OIL (VEGETABLE OIL), SODIUM CETEARYL SULFATE, OLEA EUROPAEA FRUIT OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), PHENOXYETHANOL, CETEARYL GLUCOSIDE, PARFUM (FRAGRANCE), TOCOPHERYL ACETATE, HYDROGENATED VEGETABLE OIL, XYLITYLGLUCOSIDE, XANTHAN GUM, ANHYDROXYLITOL, BENZOIC ACID, CANDELILLA CERA (EUPHORBIA CERIFERA (CANDELILLA) WAX), SODIUM DEHYDROACETATE, DEHYDROACETIC ACID, XYLITOL, CITRIC ACID, ETHYLHEXYLGLYCERIN, LINALOOL

EXFOLIATING FACIAL SCRUB WITH OLIVE KERNELS MICROGRANULES

Contents 50ml

PAO

EAN Code

Size per unit: (l. x l. x h.) 75x75x80 mm
 Weight per unit: 140 g
 Units per carton: 12
 Weight per carton: 1,9 Kg
 Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

With its granules of plant extract contained in a gel with potent softening and toning properties, this product exerts an efficacious peeling action that rids the surface of the epidermis of dead cells, impurities and blemishes that hinder respiration and delay physiological turnover.

Soft and easy to apply and ideal for all skin types, it leaves the skin smooth and compact. The presence of moisturising and emollient substances and tonics complete its efficacious action.

Use

Apply onto the skin and gently massage with circular movements. Then rinse thoroughly.

Active ingredients and their effects

- Olive Seed Powder (Olea Europaea): Blend with a controlled grain-size obtained from olive stones.
- Ground Hazel Shell and Apricot Stone (Corylus Avellana Shell Powder, Prunus Amygdalus Dulcis Shell Powder): these finely ground seeds have a fundamentally mechanical action: they polish and exfoliate the skin. They are rich in fatty substances such as lipids (apricot oil), triglycerides and saturated fatty acids. This allows them to glide well, to leave treated skin soft and well-nourished. They stimulate natural skin renewal, cleanse the skin of impurities deep-down and leave it velvety. They reduce areas of thick skin and revitalise the skin to leave it radiant.
- Extra Virgin Olive Oil (Olea Europaea): A fruit extract, composed of oleic acid triglycerides, palmitic acid, linoleic acid, stearin and fatty acids. This fatty fraction boasts the property of being very similar to the fats found in the skin, making it particularly useful for strengthening the hydrolipidic film. It also contains a precious unsaponifiable fraction constituted primarily by squalene, phytosterols and certain terpene alcohols.
- Glycerine Of Plant Origin: This polyalcoholic molecule boasts a natural ability to capture water that allows it to exert its characteristic moisturising and humectant action.

Ingredients

AQUA (WATER), GLYCERIN, PPG-1-PEG-9 LAURYL GLYCOL ETHER, CORYLUS AVELLANA SHELL POWDER (CORYLUS AVELLANA (HAZEL) SHELL POWDER), PRUNUS AMYGDALUS DULCIS SHELL POWDER (PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) SHELL POWDER), CARBOMER, BENZYL ALCOHOL, OLEA EUROPAEA SEED POWDER (OLEA EUROPAEA (OLIVE) SEED POWDER), SODIUM HYDROXIDE, SALICYLIC ACID, PARFUM (FRAGRANCE), SORBIC ACID, OLEA EUROPAEA FRUIT OIL* (OLEA EUROPAEA (OLIVE) OIL*), CI 19140 (YELLOW 5), CI 42090 (BLUE 1)

EXTRA VIRGIN OLIVE OIL ANTI-WRINKLE CREAM

Contents 50ml

PAO

EAN Code

Size per unit: (l. x l. x h.) 75x75x80 mm
 Weight per unit: 140 g
 Units per carton: 12
 Weight per carton: 1,9 Kg
 Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

This specific formula contains a blend of precious natural active ingredients that possess anti-age, dermoactivating, stimulating and firming actions that make it a high-quality product with potent toning-replenishing properties that make it possible to moisturise the skin deep-down and stimulate lipid absorption, thereby reinforcing the structural component of the cell membranes.

Use

Apply an appropriate amount of the product AM and PM on perfectly cleansed skin, gently massaging and patting the area around the eyes.

Following through facial cleansing, apply a small amount of cream to the skin using circular massaging movements until it is completely absorbed. Recommended for atonic and relaxed skin types. Excellent base for make-up.

Active ingredients and their effects

- Extra Virgin Olive Oil (*Olea europaea*): this active ingredient is extensively used in the cosmetics and dermatology fields on account of its sebum-like characteristics. Extra Virgin Olive Oil is rich in antioxidants and anti-age ingredients that stimulate collagen and elastin synthesis and in this product it performs multiple actions: it moisturises, nourishes, soothes, repairs and has an anti-age action.
- High-purity plant ceramides (Ceramide NP, Ceramide AP, Ceramide EOP, Cholesterol): these substances adapt readily to the skin on account of their structure being similar to that of the skin's natural ceramides, lipid molecules that constitute the loadbearing structure of the skin and play a fundamental restructuring and protective role. In addition they favour the maintenance of the skin's water balance and strengthen its elasticity.
- Allantoin: Is used in this formula for its keratoplastic action, i.e. as a restructuring and elasticising substance that helps replenish and strengthen damaged and delicate skin.
- Glycerine: a polyalcoholic structure which withholds superficial exchange water, used also for its moisturising characteristics.
- Tinocare GL (Scleroglucan, Phenoxyethanol): natural yeast polysaccharide, whose particular collagen- and hyaluronic acid-like molecular structure gives the product wrinkle-reduction properties and improves elasticity, by re-moisturising the skin deep-down with a long-lasting action. It also has an anti-inflammatory effect similar to that of aloe.
- Citric Acid: naturally normalises the skin's pH. Its acidic pH helps keep the skin's protective film of water, acid and lipid components efficient and in optimum conditions.

Ingredients

AQUA (WATER), OLEA EUROPAEA OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), GLYCERIN, ETHYLHEXYL STEARATE, CETEARYL ALCOHOL, GLYCERYL STEARATE, DICAPRYLYL ETHER, CETEARETH-20, CETYL ALCOHOL, PHENOXYETHANOL, CETYL PALMITATE, CETEARETH-12, DIMETHICONE, SODIUM POLYACRYLATE, ALLANTOIN, PARFUM (FRAGRANCE), BENZOIC ACID, SODIUM DEHYDROACETATE, DEHYDROACETIC ACID, CITRIC ACID, LYCIUM BARBARUM FRUIT EXTRACT*, HYDROLYZED RICE PROTEIN, SODIUM LAUROYL LACTYLATE, ETHYLHEXYLGLYCERIN, BHT, SCLEROGLUCAN (SCLEROTIUM GUM), CERAMIDE NP, PHYTOSPHINGOSINE, CHOLESTEROL, CERAMIDE AP, XANTHAN GUM, CERAMIDE EOP

 Weight per carton: 1,9 Kg
 Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

Daily cosmetic treatment with a high moisturising and emollient action, rich in plant extracts, that strengthens the skin's natural defences, capturing deep-down the moisturising molecules of the active ingredients it is made of. This non-oily readily-absorbed cream reduces redness and irritation, to give the complexion greater tone, freshness and vitality.

Use

Apply onto the skin and gently massage with circular movements until absorbed. Ideal before applying make-up

Active ingredients and their effects

- Extra Virgin Olive Oil (*Olea europaea*): this active ingredient is extensively used in the cosmetics and dermatology fields on account of its sebum-like characteristics. Extra Virgin Olive Oil is rich in antioxidants and anti-age ingredients that stimulate collagen and elastin synthesis and in this product it performs multiple actions: it moisturises, nourishes, soothes, repairs and has an anti-age action.
- Almond Oil (*Prunus Dulcis*): obtained by cold-pressing, this oil boasts excellent emollient and nourishing properties; it is used in the cosmeceutical sector to treat all irritated, particularly delicate or reddened skins on account of its soothing and calming properties.
- Aloe Vera "gel" (*Aloe vera barbadensis* – titrated juice): active ingredients (hydrocolloidal mucilage) of the Aloe Vera plant, that exert an efficacious protective and deep-moisturising action very similar to that performed in the skin by hyaluronic acid, collagen and chondroitin sulphate, which trap molecules of water deep-down to improve the skin's moisture and tone and to exert a profound soothing action in the event of redness and burns.
- Dog Rose (*Rosa Canina*): Dog Rose hips are well known for their richness in vitamin C that makes them a valid aid in boosting our immune defences. Their high carotenoid, flavonoid and anthocyanin content justifies their use in treatments that leave the skin soft and protected, particularly in the presence of couperose and dilated capillaries and its vasoprotective and anti-inflammatory properties make it ideal for use on delicate and sensitive skins.

EXTRA VIRGIN OLIVE OIL NOURISHING NIGHT CREAM

Contents 50ml

PAO

EAN Code

Size per unit: (l. x l. x h.) 75x75x80 mm
 Weight per unit: 140 g
 Units per carton: 12
 Weight per carton: 1,9 Kg
 Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

An extremely hydrating and moisturizing cream rich in essential fatty acids and vegetable extracts such as hyaluronic acid. This cream has been created to nourish right down to the cellular membranes, strengthening the skin's natural defenses and guaranteeing softness, hydration and elasticity to even the most sensitive dry skins. A non greasy cream that is immediately absorbed into the skin.

Use

Following through facial cleansing, apply a small amount of cream to the skin using circular massaging movements until it is completely absorbed. Recommended for dry and delicate skin types.

Active ingredients and their effects

- Pure vegetal ceramides: fat molecules similar to the ceramides present in the skins epidermis forming its structural base. They perform an important protective and restructuring role as well as maintaining the skins water balance.
- Extra virgin olive oil (olea europea), used for its abilities to hydrate, repair, sooth and moisturize as well as its anti-aging properties.
- Wheat germ and Jojoba oil are used for their healing and antibacterial effects and also for their protective, hydrating, moisturizing and softening capabilities.
- Revitalizing ingredients (Phytaluronate, Tinocare GL), valuable ingredients (derived from carob seeds and yeast) that represent the vegetable version of hyaluronic acid and collagen; they possess both hydrating and softening abilities and offer a notable reduction in wrinkles, making this cream the perfect choice in any hydrating, protective and revitalizing skin routine.

Ingredients

AQUA (WATER), GLYCERIN, OLEA EUROPAEA OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), CETEARYL ALCOHOL, GLYCERYL STEARATE, TRITICUM VULGARE GERM OIL (TRITICUM VULGARE (WHEAT) GERM OIL), CETEARETH-20, ETHYLHEXYL STEARATE, SIMMONDSIA CHINENSIS SEED OIL (SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL), CETYL ALCOHOL, PHENOXYETHANOL, CETYL PALMITATE, CETEARETH-12, DIMETHICONE, SODIUM POLYACRYLATE, PARFUM (FRAGRANCE), BENZOIC ACID, SODIUM DEHYDROACETATE, SODIUM LAUROYL LACTYLATE, DEHYDROACETIC ACID, ETHYLHEXYLGLYCERIN, BHT, CITRIC ACID, CERATONIA SILIQUA GUM, CERAMIDE NP, PHYTOSPHINGOSINE, SCLEROGLUCAN (SCLEROTIUM GUM), CHOLESTEROL, CERAMIDE AP, XANTHAN GUM, CERAMIDE EOP

EXTRA VIRGIN OLIVE OIL EYES CONTOUR CREAM

Contents 30ml

PAO

EAN Code

Size per unit: (l. x l. x h.) 75x75x80 mm
 Weight per unit: 100 g
 Units per carton: 12
 Weight per carton: 1,4 Kg
 Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

Cream suited to all skin types, this readily absorbed product has been developed to combat the signs of tiredness. The special active ingredients it contains reduce dark circles and bags and lend new tone and elasticity to the eye contour area. The various emollient substances help maintain the skin's water balance and boost its moisture content.

Use

Apply an appropriate amount of the product AM and PM on perfectly cleansed skin, gently massaging and patting the area around the eyes.

Active ingredients and their effects

- Citric Acid: Naturally normalises the skin's pH. Its acidic pH helps keep the skin's protective film of water, acid and lipid components efficient and in optimum conditions.
- Formulated with a specific complex for the treatment of puffiness and eye aging (diptide-2, hesperidia methyl chalcone, palmitoyl tetrapeptide-7): It has triple action: anti-inflammatory, draining and capillary permeability. It improves tone and suppleness. Its function is to reduce "swelling" of the eyelid by draining it of any excess liquids.
- Extract of glycolic of chamomile (chamomile recutita extract): a plant rich in essential oils (bisabolo, chamazulene, etc.), flavonoids and coumarins which carry out a soothing, calming and anti-redness effect.
- An active mix of vegetable ceramides (Ceramide NP, Ceramide AP, Ceramide EOP, Phytosphingosine, Cholesterol): the ceramides build the mortar which hold together the most superficial cells of the skins system. The highly pure vegetable ceramides possess a great adaptability to the skin as they feature a similar structure to the ceramides naturally present in our own skin (or even better in the stratum corneum, which is the superficial one). They are lipidic molecules made up of fatty acids and more complex lipids. Therefore their role is protective and restorative.
- Extra Virgin Olive Oil (olea europea): extract of fruits (the Taggiasca Cultivar) with cold pressing, made up of oleic acid triglycerides, palmitic acid, linoleum, of stearin and of fatty acids. This fat fraction has the qualities of being particularly similar to dermal lipids and consequently it is particularly useful to reinforce the hydrolipidic film.

Ingredients

AQUA (WATER), ETHYLHEXYL STEARATE, HYDROXYETHYL ACRYLATE/SODIUM ACRYLOYLDIMETHYL TAURATE COPOLYMER, GLYCERIN, ISOHEXADECANE, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, OLEA EUROPAEA OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), SODIUM DEHYDROACETATE, PROPYLENE GLYCOL, STEARETH-20, CHAMOMILLA RECUTITA EXTRACT (CHAMOMILLA RECUTITA (MATRICARIA) FLOWER EXTRACT), HESPERIDIN METHYL CHALCONE, SODIUM LAUROYL LACTYLATE, CERAMIDE NP, CITRIC ACID, PHYTOSPHINGOSINE, CERAMIDE AP, CHOLESTEROL, N-HYDROXYSUCCINIMIDE, XANTHAN GUM, DIPEPTIDE-2, PALMITOYL TETRAPEPTIDE-7, CHRYSIN, PALMITOYL TRIPEPTIDE-1, CERAMIDE EOP

EXTRA VIRGIN OLIVE OIL LIGHTENING ANTI DARK SPOTS CREAM

Contents 30ml

PAO

EAN Code

Size per unit: (l. x l. x h.) 75x75x80 mm

Weight per unit: 100 g

Units per carton: 12

Weight per carton: 1,4 Kg

Carton size: (l. x l. x h.) 250x180x190 mm

Produced with natural oils and mountain water. Dermatologically tested. External use. Keep out of reach of children. Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

This product has been developed to reduce skin imperfections such as irregular skin tone. Continual, constant application helps to reduce the appearance of skin blemishes and guarantees a progressive and long lasting lightening effect on imperfections. It also contains filters to protect from sunlight.

Use

Following through facial cleansing, apply a small amount of cream to the skin using circular massaging movements until it is completely absorbed. Recommended for atonic and relaxed skin types. Perfect as a makeup base.

Active ingredients and their effects

- Extra virgin olive oil (olea europea): Used for its abilities to hydrate, repair, soothe and moisturize as well as its anti-aging properties.
- Lemon peel enzymes (Lactobacillus / Citrus Medica Limonium peel ferment extract): The medicinal properties of lemons are widely known and the Latin name underlines this. From a medical standpoint they have been used as a source of vitamin C against scabies and are often present in sunburn remedies. Due to their high citric acid content, associated with antioxidant properties which help to contrast skin ageing, lemon juice has long been known for its skin lightening abilities, also helping in limiting the appearance of new blemishes. It is an ideal skin cleanser and is highly efficient at reducing wrinkles. The enzymes in lemon peel are obtained by way of a biofermentation process using the Lactobacillus lactis bacteria.
- Argan oil (Argania Spinosa oil): The argan tree is a spiny evergreen native to the south west of Morocco. The tree produces large nuts from which this excellent anti ageing oil is extracted. Extremely high in vitamin E, fatty acids and natural antioxidants but also in flavanoids which work as anti inflammatory agents and tocopherol which helps to prevent free radical damage.
- Mandelic Acid: Alphahydroxy acid obtained from the hydrolysis of bitter almond extract has proven to be successful in the treatment of the most common skin blemishes such as photo ageing, irregular skin tone, acne and small wrinkles. It is an excellent tool to use for chemical peeling as the absence of any burning sensation or redness does not limit its effectiveness. This acid is particularly active in repairing and revitalizing ageing skin as it has both depigmentation and antibiotic properties.

Ingredients

AQUA (WATER), ETHYLHEXYL METHOXYCINNAMATE, GLYCERIN, CETEARYL ALCOHOL, GLYCERYL STEARATE, COCOGLYCERIDES, PROPANEDIOL, CETEARETH-20, CETYL ALCOHOL, OLEA EUROPAEA OIL* (OLEA EUROPAEA (OLIVE) FRUIT OIL*), DICAPRYLYL CARBONATE, LACTOBACILLUS/LEMON PEEL FERMENT EXTRACT, PHENOXYETHANOL, CETEARETH-12, CETYL PALMITATE, ARGANIA SPINOSA KERNEL OIL, LACTOBIONIC ACID, CETEARYL ETHYLHEXANOATE, DIMETHICONE, PARFUM (FRAGRANCE), SODIUM POLYACRYLATE, BENZOIC ACID, SODIUM DEHYDROACETATE, MANDELIC ACID, DEHYDROACETIC ACID, BUTYLENE GLYCOL, MALTODEXTRIN, CITRIC ACID, TETRASODIUM GLUTAMATE DIACETATE, LEUCO NOSTOC/RADISH ROOT FERMENT FILTRATE, ETHYLHEXYLGLYCERIN, PAPAIN, TITANIUM DIOXIDE, SAPOSHNIKOVIA DIVARICATA ROOT EXTRACT, ANGELICA ACUTILOBA ROOT EXTRACT, LECITHIN, KAOLIN, THIOCTIC ACID, ASCORBYL GLUCOSIDE, TOCOPHEROL, ASCORBYL PALMITATE, PINUS PINASTER BARK EXTRACT.

EXTRA VIRGIN OLIVE OIL LIP BALM

Contents 4,5ml

PAO

EAN Code

Size per unit: ø 19 x h.67 mm
 Weight per unit: 12 g
 Units per carton: 16
 Weight per carton: 0,22 Kg
 Carton size: (l. x l. x h.) 80x.80x.80 mm

Natural product. Dermatologically tested.
 External use. Keep out of reach of children.
 Avoid contact with eyes. Apply only to flawless skin.

Any changes in color and / or odor does not change the properties of the product as they are due to the presence of substances of natural origin.

Product characteristics

Nature's emergency remedy for dry and chapped lips. The formula includes plant butters and oils with replenishing properties that help keep the delicate mucosa of the lips soft and moist.

The presence of a physical filter helps protect the lips against the harmful action of sunlight. Its beneficial action even improves and maintains the health of the lips.

Use

Because of the synergistic action of oils, butters and active ingredients a daily use is recommended.

Active ingredients and their effects

- Ricin Oil (ricinus communis): a ricinoleic acid triglyceride. Ricinoleic acid has been shown to be efficacious in preventing a number of fungi, bacteria, yeasts and moulds. It is readily absorbed and an important carrier for the dispersion of lipophilic substances.
- Candelilla Wax (Candelilla Cera): Candelilla wax has a very high melting point and high stability. It is glossy, binds oils in an optimum way, adheres well, is pleasant on the skin, when heated it has the fragrance of beeswax and it is even edible.
- Jojoba Oil (Simmondsia Chinensis Oil): Jojoba oil regenerates the skin and leaves it soft and elastic, it boasts nourishing and moisturising properties and provides slight protection against the sun. Its distinguishing feature is its balancing effect on all skin types: it nourishes dry skins and drains oily skins. Jojoba oil is the most eudermic (most similar to the skin's physiological hydrolipidic film) of all oils used in the cosmetics industry. When used on the lips, it nourishes the mucosae by imitating the normal processes that protect the skin, which preserves, without upsetting, the delicate biochemical balance present in the skin.
- Octyldodecanol: obtained by means of a natural and safe process (certified by the FDA), this long-chain aliphatic alcohol lends softness and is useful for the transportation of lipophilic substances.
- Bees Wax (Cera Alba) An outstanding active ingredient for dry and chapped skin. It forms a barrier against bacteria and environmental chemical agents.
- Apricot Kernel Oil (Prunus Armeniaca Kernel Oil): This oil's excellent elasticising, nourishing and softening action makes it ideal for combating loss of tone.
- Extra Virgin Olive Oil (Olea Europaea): Composed of oleic acid triglycerides, palmitic acid, stearin and fatty acids. This fatty fraction boasts the property of being very similar to the fats found in the skin, making it particularly useful for strengthening the hydrolipidic film. It also contains a precious unsaponifiable fraction constituted primarily by squalene, phytosterols and certain terpene alcohols.

Ingredients

RICINUS COMMUNIS SEED OIL (RICINUS COMMUNIS (CASTOR) SEED OIL), SIMMONDSIA CHINENSIS SEED OIL (SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL), CANDELILLA CERA (EUPHORBIA CERIFERA (CANDELILLA) WAX), OCTYLDODECANOL, CERA ALBA (BEESWAX), HYDROGENATED VEGETABLE OIL, PRUNUS ARMENIACA KERNEL OIL (PRUNUS ARMENICA (APRICOT) KERNEL OIL), HYDROGENATED PALM OIL, THEOBROMA CACAO SEED BUTTER (THEOBROMA CACAO (COCOA) SEED BUTTER), OLEA EUROPAEA FRUIT OIL (OLEA EUROPAEA (OLIVE) FRUIT OIL), PLUKNETIA VULBILIS SEED OIL, BUTYROSPERMUM PARKII BUTTER (BUTYROSPERMUM PARKII (SHEA) BUTTER), TITANIUM DIOXIDE (NANO), AROMA (FLAVOR), SILICA DIMETHYL Silylate, TOCOPHERYL ACETATE, ALUMINUM HYDROXIDE, STEARIC ACID, HELIANTHUS ANNUUS SEED OIL (HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL), RETINYL PALMITATE, TOCOPHEROL
